Biolift Skin Tightening

Your face will be lifted, formed and tones giving it a much more youthful appearance. A series of treatments is recommended for best results.

Microdermabrasion

This is a non-surgical, non-invasive procedure to exfoliate your skin and remove congestion from your pores. It will improve the texture and tone of your skin, diminish the appearance of large pores and reduce fine lines and wrinkles. This treatment can be combined with a Signature facial for more dramatic results. Series package available.

Add Glycolic Peel \$20

Micro-Needling

Smooth, healthy, young looking skin is what every woman wants. Micro-Needling will help you achieve that goal. This procedure will stimulate the production of new collagen and elastin fibers, promoting your skin to rejuvenate itself.

This treatment allows the micro-delivery of skin care products which will aid in the reduction of fine lines, reduce pore size and help with acne scar and stretch mark remodeling.

Series of treatments recommended for best results.

Important Information

Waxing Restrictions

*** Hair growth must be at least 1/8" to receive waxing services. Waxing cannot be performed on clients who are taking any oral or topical acne medications, including Accutane, Retin-A, or using antibiotics. Use of these prescription drugs cause extreme sensitivity to the skin. Failure to report current use of these drugs to your esthetician may result in an unforeseen occurrence of skin damage during the waxing procedure.

*** Please, no use of tanning facilities or glycolic products within 24 hours before or after the waxing services.

*** No swimming or use of hot tubs and submersion bathing within 24 hours after body and full leg waxing.
